NEW YORK, Nov. 20. The Herald's New Orleans special says the Republican visitors continue taking testimony in regard to the "bulldozed" parishes and will continue to do so until the 25th inst.

The President and General Sherman Contradict the Report.

WASHINGTON, Nov. 20. With regard to the arrival of troops yesterday, the President said this morning that he had not ordered an ordinary change of station. General Sherman said that four artillery companies equipped with infantry and three artillery companies from Fort Leavenworth and Riley, which arrived today, belonged to General Hancock's command, which includes the City of Washington.

Preparing the Message.

President Grant to-day began the preparation of his annual message, and therefore is not receiving reports.

Secretary Cameron said this afternoon that no additional troops were to be ordered, and that the presence of those already here had no important significance.

The Secretary of the Navy in response to inquiries regarding the rumors of concentration of a fleet at the city, vicinity, emphatically denied the truth. The vessels of the Navy are pursuing their usual routine of duty without extraordinary orders, and there was no suggestion or direction from the Navy Department to commanders of vessels which could be construed into an act which would occasion the slightest concern or excitement.

Secretary Chandler said this morning that he was not a formal action of the Administration, but merely an ordinary movement. He himself did not know that any companies had been ordered here, and he was not aware that any more were coming. It may be stated in addition to the above that the troops were here at least until after the Presidential inauguration, as it is to have a military escort on such occasions both as a guard of honor and in order to suppress any riotous disturbance which might arise.

It is probable that Light Battery A of the 2d artillery, now stationed at Fort McHenry, will shortly be ordered here, in which case it is understood that it will be replaced by Battery C of the same regiment which left Fort McHenry for the full campaign a month ago and arrived to-day from Fort Riley.

SENATOR BLAINE.

Report of an Interview.

NEW YORK, Nov. 20. Senator Blaine passed through the city yesterday, and was interviewed by a reporter. He said there was no foundation for the Washington rumor connecting his name with the Presidency of the Senate. The tradition of the Senate, parliamentary usage, and his own personal wishes, would be all equally against such a step. Mr. Blaine expressed little sentiment test any one should imagine could entertain for a moment the purpose of being elected President. He expressed the opinion that both Gov. Hayes and Gov. Tilden had exhibited admirable prudence and propriety during these last few days, and to their bearing he thought was due in a great part the cessation of public excitement on the question.

A Storm-wave Twenty Feet High.

Thrilling Scenes of Devastation.

Whole Population Swept Away by the Furious Floods.

LONDON, Nov. 20. A despatch to the Times from Calcutta says that the large islands, viz: Hattian, Sundip and Dakshin, and numerous small islands included in the Backergunge, Nank valley and Chittagong Districts, are entirely submerged by the storm-wave of October 31st, was also the main land for five or six miles. These islands are all situated in or near the estuary of the River Megna. The largest, Dakshin Sundip, was 800 square miles in extent. It is now a vast sea of water, and the population of about 100,000 people, to 11 o'clock on the night of the 31st, there were no signs of danger, but before midnight the waves swept over the country to a depth in many places of twenty feet, surprising people in their beds. There is much distress among the people, and many have been killed. The government has sent a large force of troops to the islands, and the people are being rescued. NEW YORK, Nov. 20. A Tallahassee despatch to the Herald contains the following only item of interest: "A company of troops leave Monday for Jackson county for investigation of violence and intimidation is to be made."

An Authentic Republican Statement—Why the Republicans Have Not Forwarded Their Returns.

NEW YORK, Nov. 20. The Times publishes the following: "The Republicans have been frequently asked to give figures of the Electoral vote of the State as claimed by the Republicans. We have declined to do so for the following reasons: The official returns have been received from 33 out of the 39 counties, and until all are in we are unwilling to think it unwise to give our own estimate of the figures. The Democratic counties still behind being sufficiently changed after the result. We do not necessarily impute to anyone a design to commit fraud, but it is enough that such a thing is possible and not unknown here, and where, as in the case of the election frauds in the city of New York at the Presidential election of 1868 and

in furtherance thereof. In 1872 this State the raising of the figures of the county returns in favor of the Democratic ticket nearly 1,000 votes was discovered at the last moment and was only counteracted by the extraordinary efforts which were made to obtain the original returns. We feel entirely justified in declining to give any information which shall even in the remotest degree render aid to the frauds possible or desirable. The Times' correspondent says this fear is happily not yet realized except in Nank valley where the frauds were discovered. News from same-hatched districts of Madras is somewhat better. Rain has been falling here for several days, and the prospects are still gloomy, and actual famine in two or three districts seem probable and there is great distress.
